 drawings, XLVI
 Weight, alabaster, XVIII
 Wood, beds of, IX/1-2

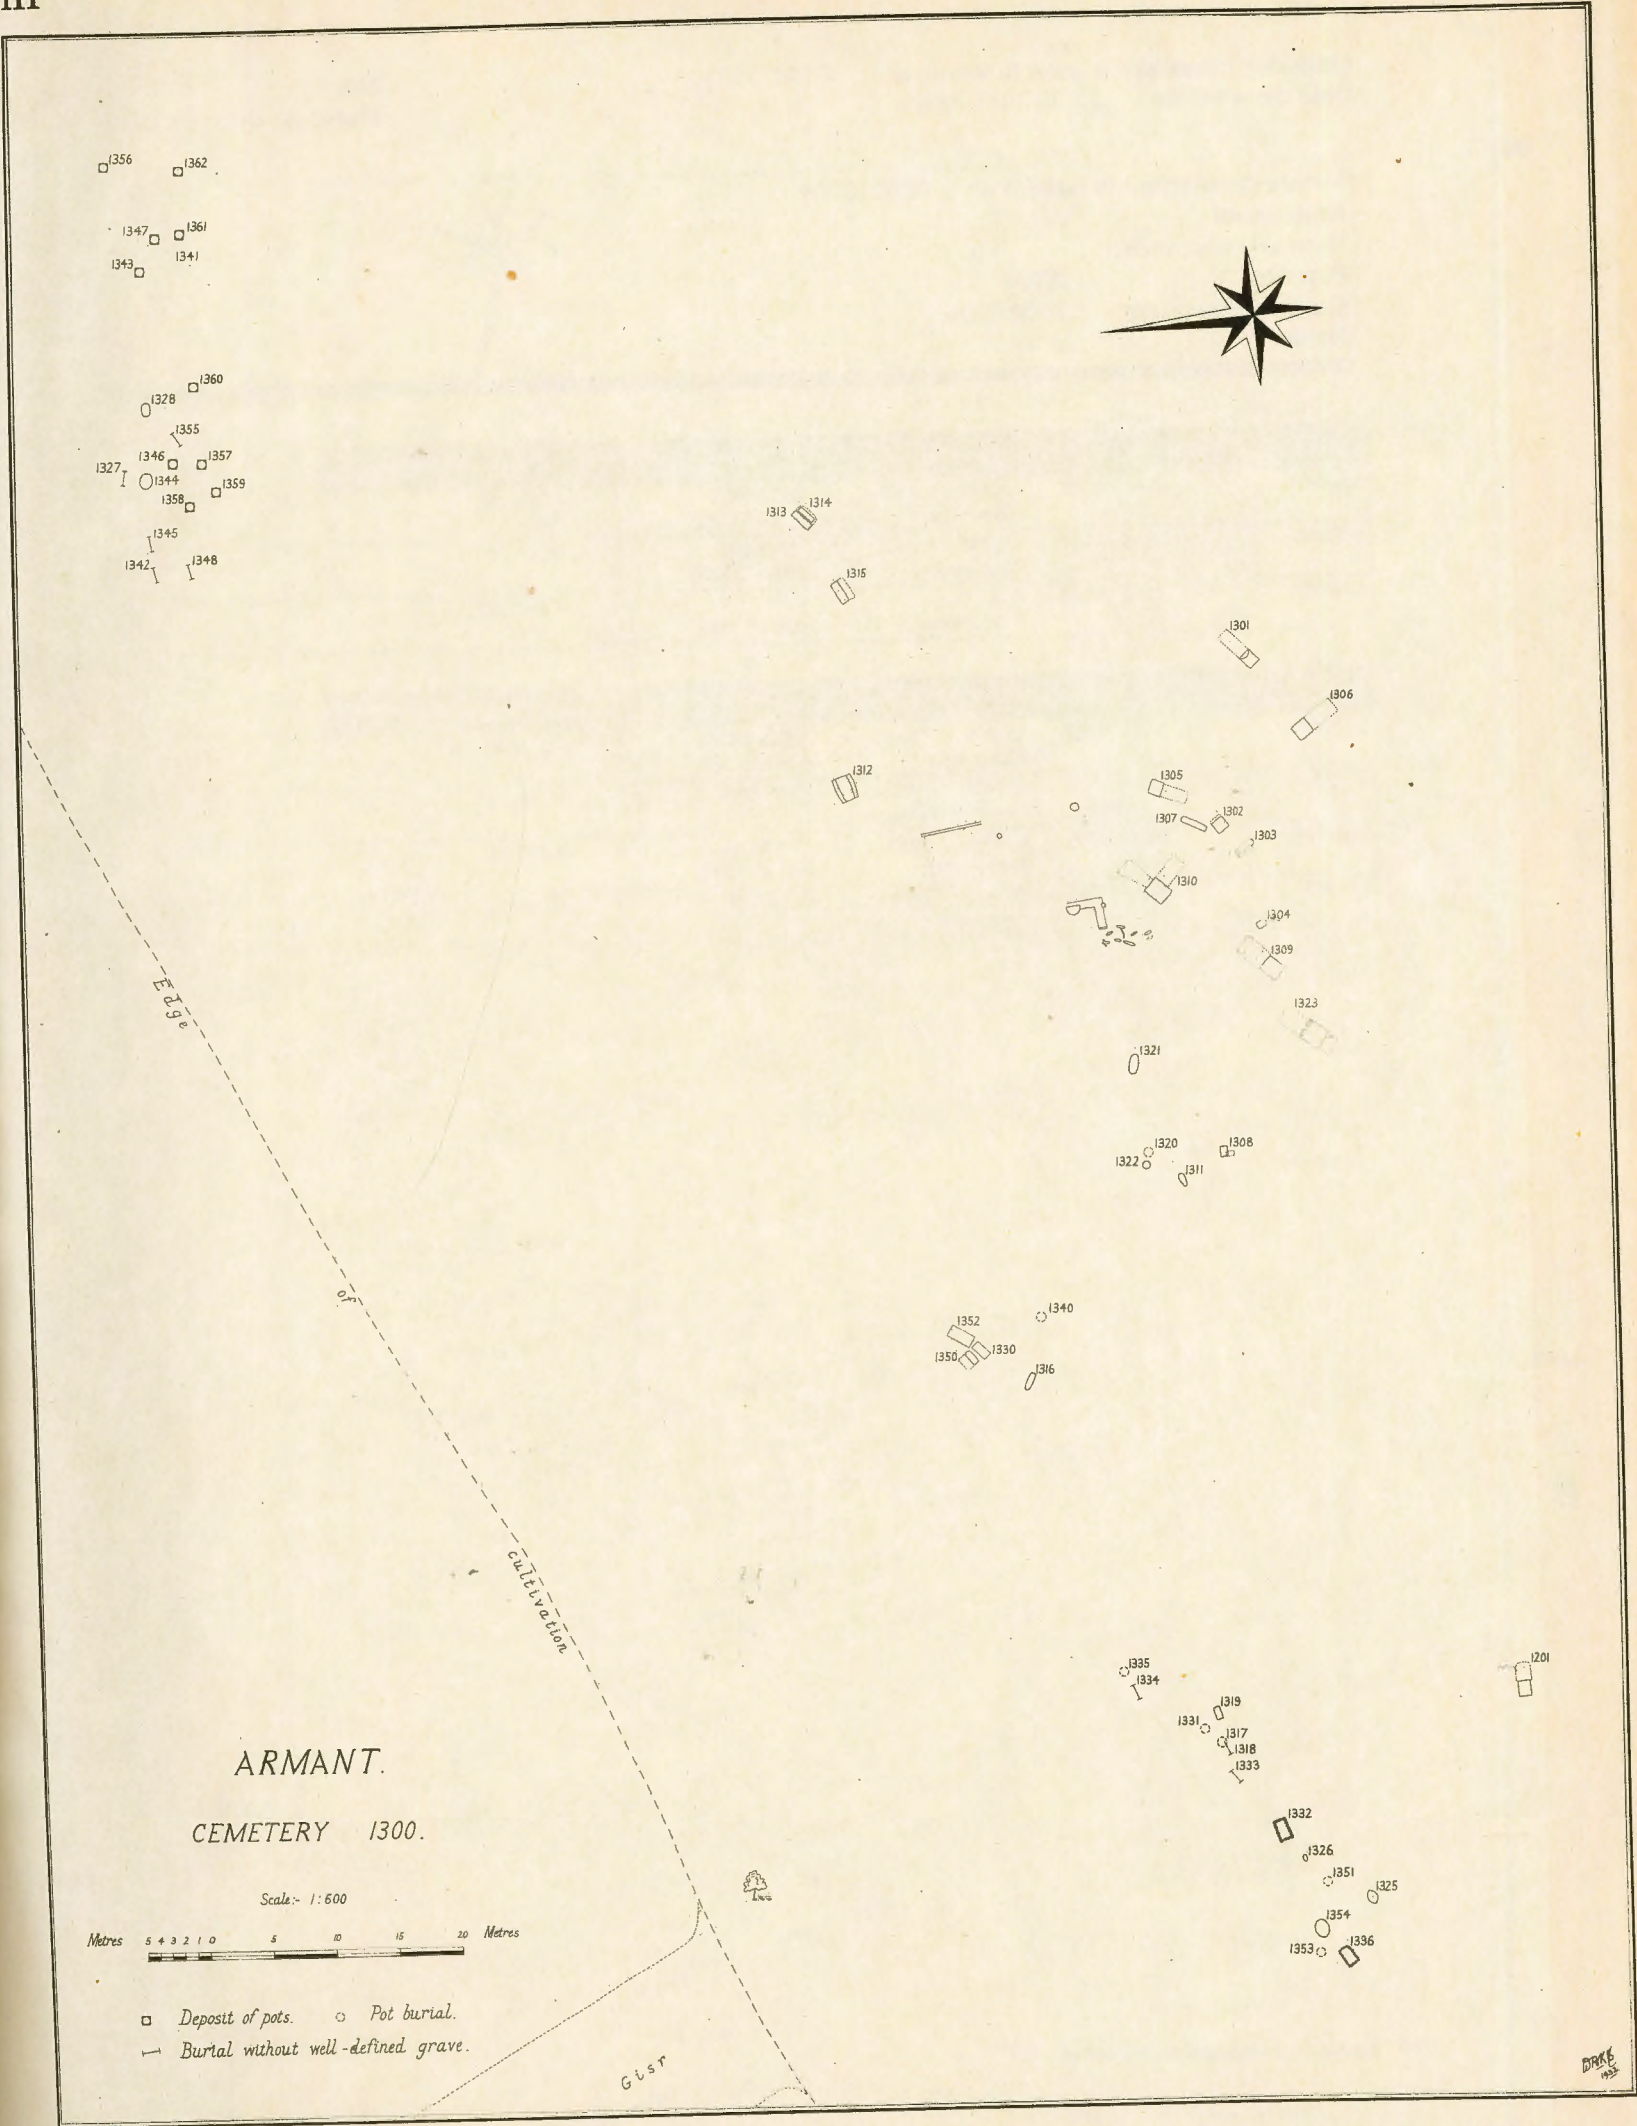

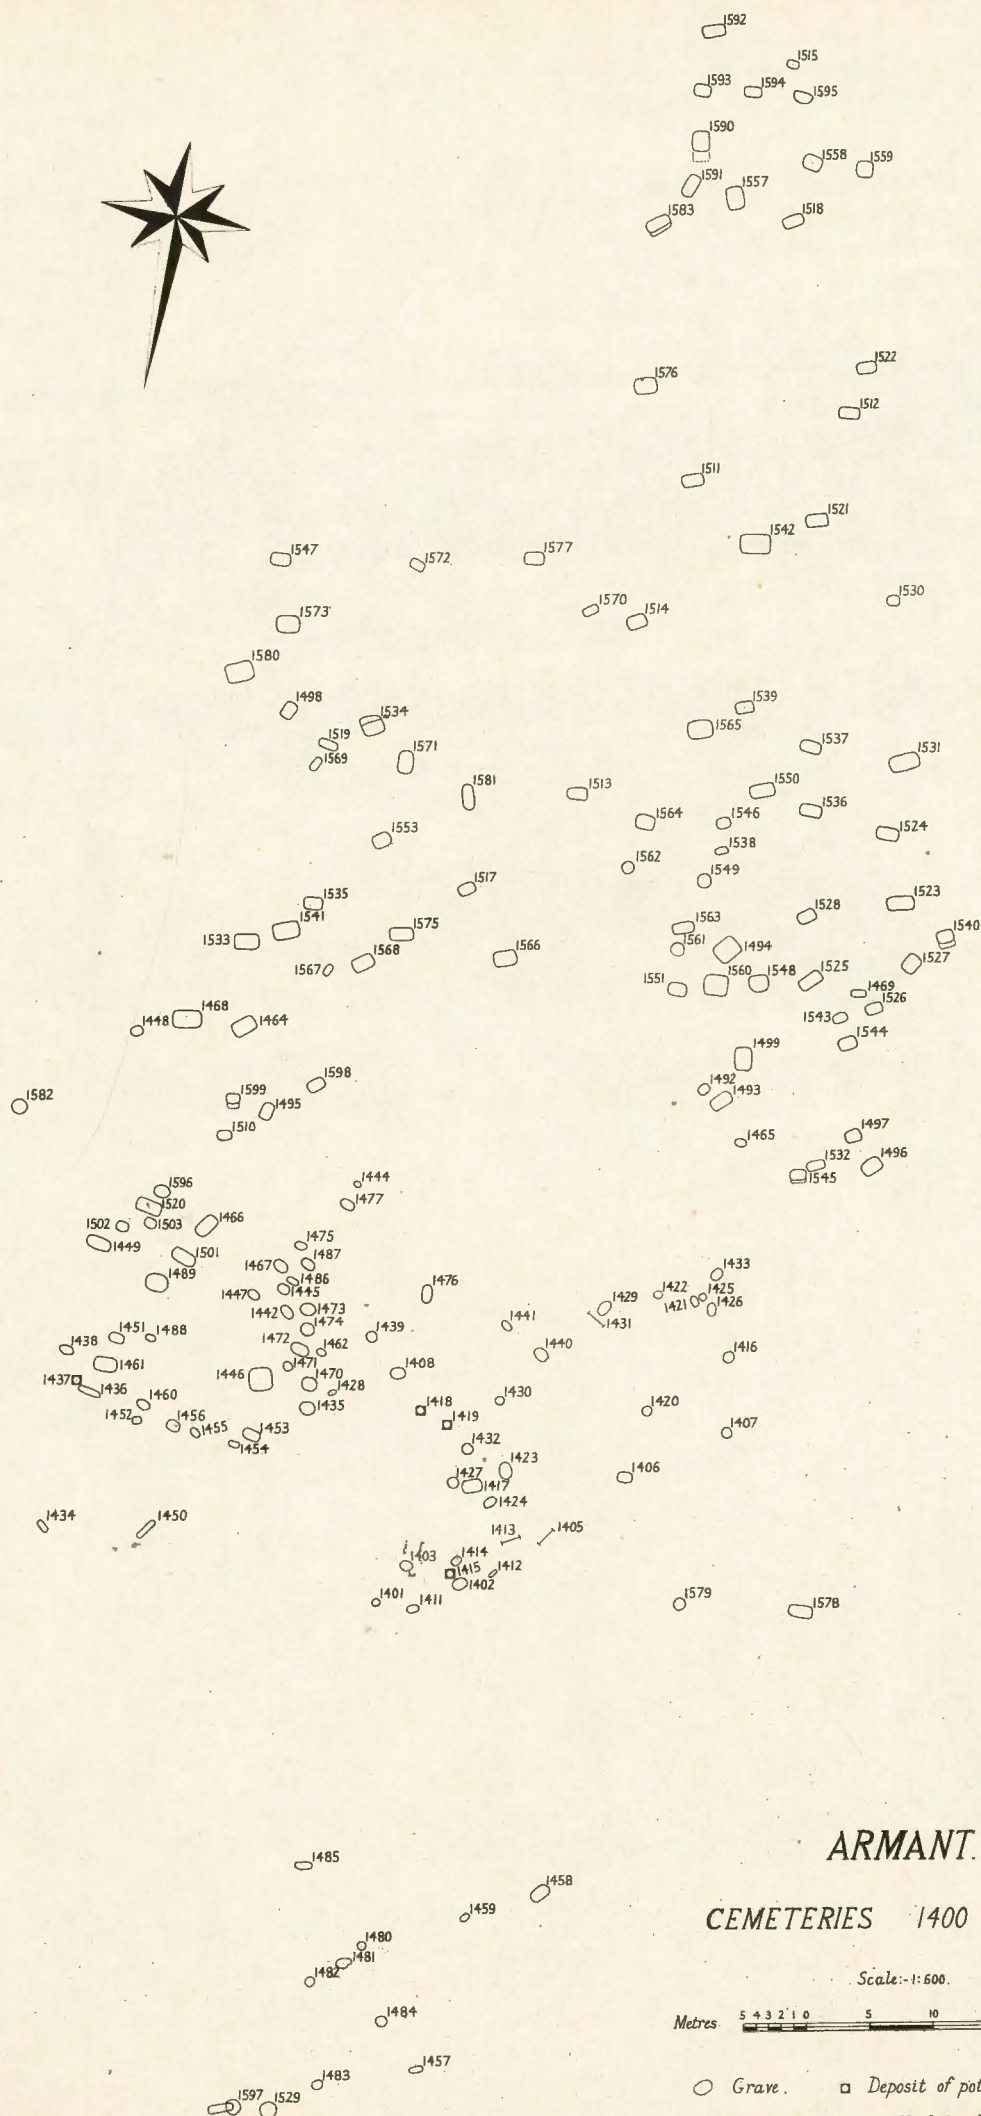

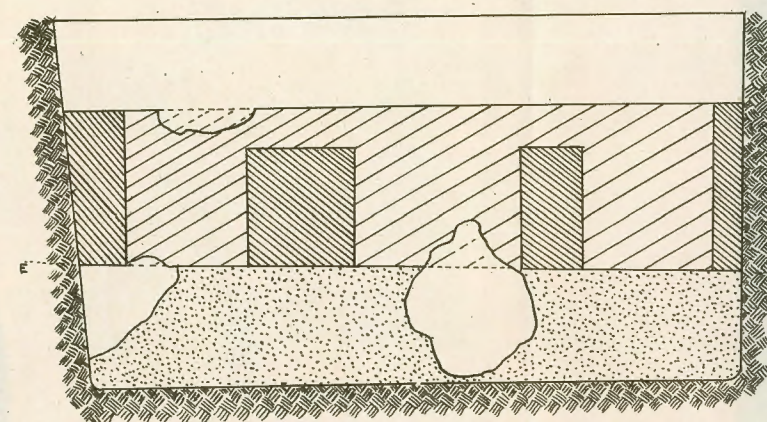

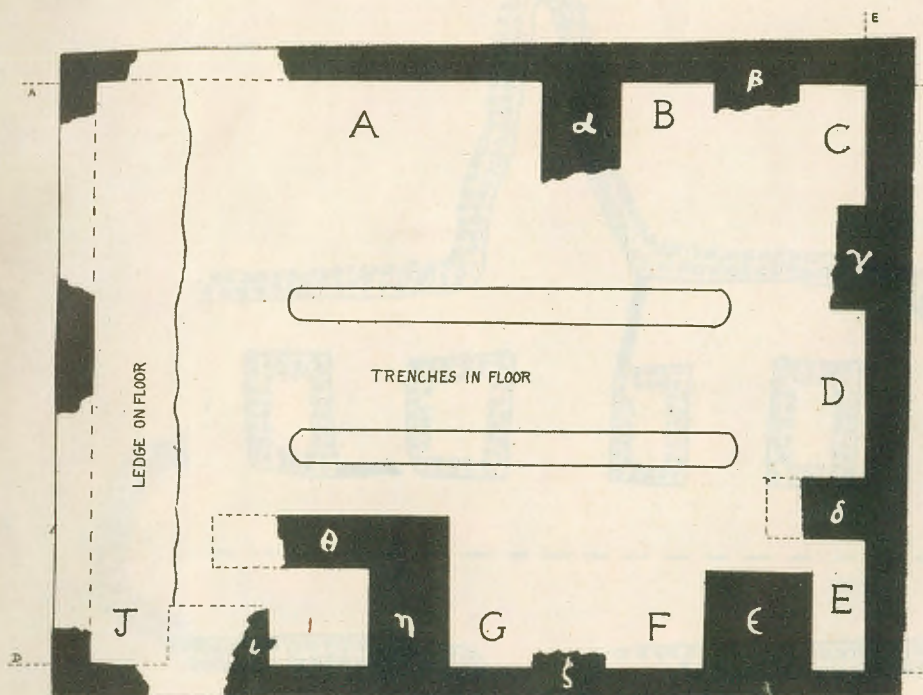

Note:— This map is based upon a triangulation survey of the concession by the E.E.S. starting from a measured base 400 m. west of Buchueim House. Stations shown thus Δ are marked on the ground by a cairn built over a petrol tin filled with concrete; intersected points are marked \circ . To the above survey has been added detail of the foothills from the Survey of Egypt 1:100,000 map 31/517, from which the approximate contours are also taken. West of Deir en Namus where the wadis are less well defined their courses, copied from the Survey map, are shown by broken lines.
